World Impact Network is proud to be the Fiscal Sponsor for:

In Washington, Jeff Lew and Stephen Medawar began Lunchdebt.org to eliminate student lunch debt and end "lunch shaming". Recently, Jeff was featured in the Alaska Airlines December Magazine, <http://www.paradigmcg.com/digitaleditions/abm-1218/html5/> (pages 89,91). Not long after Lunchdebt.org was underway, The Van Hill family began a similar quest and contacted WIN for support. Collectively, the programs have raised over \$72,000! We are proud of the impact both groups are making in their communities and around their states!

## A YEAR OF GREAT ACCOMPLISHMENTS

\*\*\*\*\*  
World Impact Network – Winter 2018

Dear Faithful Supporters of WIN:

This Christmas, we are thankful for your generous financial donations. You have enabled us to continue delivering education through our global partnerships to leaders in many parts of the world. Thank you for expressing God's love, compassion and faithfulness through your giving, and for allowing God's peace and well-being to reign in communities, cities and nations through your gifts of love.

Sharing the love of Jesus at Christmas is more than a thought or even a word, it is a gesture of goodwill and peace to others. This Christmas we want you to see the faces and read the words of those you have blessed through your charitable donations. Their stories of thanks will warm your heart.

2018 was a year of great accomplishment with our first TNUU graduation in October and our successful Innovative Value Creation conference in Engineer, Kenya in November.

Once again, hundreds of leaders have been trained and prepared to function and succeed in the global economy. Our graduates in Asia have achieved a higher standing in their communities and the leaders in Kenya continue to make inroads in the national and global economy as they use the knowledge gained at our seminars to accelerate the founding and scaling of their businesses.

We look forward to an amazing 2019 as we extend our courses to students in other parts of Asia and Africa. We pray that our dream of democratizing American Accredited education (making it available to the masses) will materialize as a reality in many more nations next year.

Merry Christmas,  
Gabiella Van Breda  
Executive Director

**TNIU GRADUATION HONG KONG - 2018 - INNOVATIVE VALUE CREATION CONFERENCE KENYA**

The New International University graduated its first class, in which students received Master of Theology, Master of Divinity, and Doctor of Ministry Degrees. The celebration that followed clearly credited the Lord for His Incredible blessings.

As we continue to see the fruit of this vision and ministry, the Administration, Faculty, and Students at TNIU are so grateful for your faithful prayers and contributions. We recognize that it takes the whole Body of Believers to accomplish something so worthwhile. Thank you!

We are immensely grateful to our partners in Hong Kong, Dr. Alan Chu and his team at Rainful Top Church. Thank you for partnering with us in the democratization of education in Asia.

Pam Hoelzle emphasizes the importance of D-risking a product or service before launching a business idea, instruction from her "How to Start Something Platform." Community, non-profit, and business leaders benefited from her entertaining and informative lectures on the steps to take before starting a small business and how to scale an existing business.

Fred Breedlove and local partner, Sammy Ngumba Githinji, teach First Aid, CPR and Disaster Preparedness. The knowledge acquired and first aid kits supplied to leaders attending the conference saved the life of a young pregnant stabbing victim the week of the conference.

Income Generating Skills Training has immense value for women who need to support their families. Having a skill means the potential for earning an income. Team members Laura, Sliva, Kele Holt, Aimee Coombs, Debby Breedlove and Krissy Brouner invested time, knowledge, energy and effort in providing the training needed to benefit leaders and ultimately their communities.
